

# Fraud Fighter™ P.O.S-15

A Program Especially for:

**The MBA Service Corporation is excited to introduce the Fraud Fighter™ P.O.S-15.**

The P.O.S-15 is the most compact counterfeit detector available on the market and is suitable for mounting in multiple positions via screws or perma-grip adhesive strip that may attach to the top or the back of the housing as required.

*Fits on the counter and checkout areas where space is limited.*

## What are Fraud Fighter™ P.O.S-15 products used for?

Fraud Fighter™ P.O.S-15 products are used to detect hidden security features in a wide variety of negotiable instruments and identification documents such as:

- **U.S. Currency:** Detects counterfeit paper on old currency notes as well as hidden UV security features and counterfeit paper on new currency notes. Canadian and a variety of other international currency can also be verified.
- **Identification Documents:** Current licenses and state IDs from 40 states have hidden security features detected by the unit. Social Security cards, U.S. passports, passports from many foreign countries, and foreign ID cards (such as the Mexican Matricula Consular) have UV features.
- **Credit Cards:** All major credit cards have hidden UV features that can be seen with the unit.
- **Official Checks and Negotiable Instruments:** Cashier's checks, government checks, traveler's checks, stock certificates and bearer bonds, title documents, and a wide range of other items, including casino chips and event tickets with hidden UV features.
